

Better World Tomorrow

**Word & Music
by Rob Smith**

Any Fool Can See

Chorus 1

**Any fool can see, any one can tell
Everybody knows and they know it well
That I've won your heart
So come on and start to let it show
Any time of day you can call on me
Darlin' that's the way it's supposed to be
Let me hear you say you feel the same
And I'll be free**

**1 I've been waiting all my life girl
For someone like you
Tell me that you feel the way I do**

Chorus 2

**Any fool can see, any one can tell
Everybody knows and they know it well
That I've won your heart
So come on and start to let it be
'Cause any fool can see**

Solo

**2 You could make it oh so easy
Just say 'I do'
Don't you know that I belong with you?**

Repeat Chorus 1

**'Cause any fool can see
Any fool can see**

Deep Sleep

- 1 Always thought it was a little too good to be true
Could I really have the love of somebody like you?
I guess I wanted to be fooling myself
But now my vision is clear**

Chorus

**Like waking up from a deep sleep
Coming to from long, long dream
Like stepping out of the dark into day
Now it's easy to see
That you're not in love with me, Oh no no
You're not in love with me.**

- 2 I know the danger signs were present -
- from the moment we met
There were too many things -
- I had to work too hard to forget
Guess in a way that it was fun while it lasted
But now reality bites**

Repeat Chorus

Middle 8

**So it's goodbye, my friend
Every day must have its ending
But tell me why, my friend
Did you use me up and blow me away?**

Solo

**Farewell to fairy-tales of crimson and clover
This time it's over and out**

Repeat Chorus

Say Goodnight

Chorus

Say goodnight to love
Say goodbye to romance
Say good-day to tears
This will be our last dance
For the time has come
To turn out the light
And say goodnight

- 1 Always knew this war would complicate -
- our two simple lives
But always hoped this day would not arrive
Now it's clear I have to leave
Never to return ... so

Repeat Chorus

- 2 All our cherished dreams -
- have turned to dust in our fated hands
Now we share the pain of shattered plans
But it seems we've got no choice
This is where it ends ... so

Repeat Chorus

Middle 8

Girl it breaks my heart just to see you cry
It's killing me slowly
Tearing us apart is such a bitter crime

Solo Verse

I'll always be there in your dreams
So kiss me one more time ... and

Repeat Chorus

Opposites Attract

- 1 You were made for sunshine, baby
I was made for snow
You were born at high tide and maybe
I was born at low
But as different as we are
We've a love that will go far
'cause it's a scientific fact
That opposites attract**
- 2 You were raised for up-town society
While I was raised for down
Your daddy was a straight-laced attorney
Mine a circus clown
But it doesn't change a thing
We've a charge that always wins
'cause it's a kinesthetic pact
That opposites attract**

Middle 8.1

**And the beauty's found within the simplicity
'Cause the net result is electricity**

Solo

Middle 8.2

**And I'm sure old Dr Einstein would agree
That the power is found within the polarity**

- 3 I've been wired for night-time baby
You've been wired for day
I've got more electrons than protons
You're built the other way
But up or down or more or less
We've a mixture for success
It's not a simulated act
No it's a symbiotic pact
'cause it's a scientific fact
That Opposites attract, opposites attract**

Little Miss Runaround

**1 The word has got around
They say you've been a bad girl
I thought that you were mine — oh yes I did
I think that I've been had girl**

Chorus

**So tell me (Little miss runaround)
Don't you break my heart
(Little miss runaround), Be true to me
Little miss runaround, slow down tonight**

**2 I feel like I've been burned
While baby I was sleepin'
'Cause darlin' I'm concerned — oh yes I am
About the company you're keepin'**

Repeat Chorus

Middle 8

**Well I called you yesterday mornin'
And I called you again last night
I've got this feelin' inside and it's
warnin' that somethin' ain't right**

**3 I wish that I could say
It's only speculation
But darlin' I'm afraid — oh yes I am
It's more than my imagination**

Repeat Chorus

Solo

**4 It's time to stop the lies
I think it's plain to see now
'Cause when you realise just who I am
You'll come a runnin' back to me now**

Repeat Chorus

Where Does Love Go?

**1 So tell me where the sun goes
on a cloudy day?
and tell me where did love goes
Now you've gone away**

**2 Tell why the tears flow
Without your healing touch
And tell me why you had to go
I miss you oh so much**

Middle 8.1

**And when I think about it
It breaks my heart
How could our world just fall apart?**

Solo

Middle 8.2

**And as the sun sets slowly
Upon our dreams
Our day is over now it seems**

**3 Tell me why the pain grows
when life is cold and grey
and tell me where did love go
now you've gone away
Yes, tell me where does love go
before it's too late**

Cat Walk (Instrumental)

Sad Sometimes

**1 We all get sad sometimes, we all feel blue
We all get lonely now and then, it's nothing new
But if you need someone who cares
Call my name and I'll be there
It isn't such a crime – we all get sad sometimes**

**2 We all feel cold someday, when skies are grey
We all get hungry for affection – it's okay
But if you need a healing hand
Girl you know I'll understand
It isn't such a crime – we all feel cold sometimes**

Middle 8.1

**But It's not strange that it should be like this at all
We all need someone to catch us when we fall**

Solo

**So if your dreams are in despair
Say the word and I'll be there
It isn't such a crime – we all get sad sometimes**

Middle 8.2

**But if you need someone to be more than a friend
I will stay by you until the very end**

**3 We all get hurt sometimes, we all feel pain
We all fall in and out of love time and again
But if your heart has hit the ground
You just call and I'll be 'round
It isn't such a crime, good friends are hard to find
It isn't such a crime – we all get sad sometimes**

On Time Kinda Girl

- 1 I guess I've always inclined to be a little bit lazy
Being places on time is not a habit of mine
But now I'm feeling a sea-change coming
And I'm telling you why**

Chorus

**I'm falling for an on-time kinda girl
But tell me why should she wait for a girl like me
Talkin' 'bout an on time kinda girl
A picture in pure punctuality
Maybe that's why I'm always running behind
Victim of a strange little twist of fate
'Cause don't you know my on-time kinda girl's
Got me losing my mind
'Cause somehow I'm just a little too late**

- 2 I guess a guy like me has got to grow up sometime
The day has come to accept responsibility
And though I've taken the hard road this time
It's how I want it to be**

Repeat Chorus

Middle

**Seconds ticking by
But I can't wait see her face
A case of do or die
Just to be at her place on time**

Solo verse

- 3 Now I'm feeling a new day dawning
For the rest of my life**

Repeat Chorus

**Just a little too late
Baby please wait**

Subiaco Sunset

**1 Early autumn shadows dance across the dizzy street
While sun is shining on the leaves that fall about my
feet
Sipping coffee with a chocolate kiss
Down on Rokeby it doesn't get much better than this**

Chorus

**Subiaco sunset
I remember the way you made me smile
Subiaco sunset
Another summer is going out in style
Subiaco sunset
I promise never to forget
Just bring me back someday**

**2 Suburban lovers give each other telepathic looks
So I decide to lose myself inside of Ramsay's book
Catching calories at Chokeby Road
Seems like the perfect way to lighten up a heavy load**

Repeat Chorus

Middle 8

**Got to meet her
In the car-park at quarter to five
It's good to see her
And I'm reminded it's great to be alive
I can see it in the world within her eyes**

Solo

**The sun is fading and the night is fast falling
But I can hear the magic calling me wherever I go**

Repeat Chorus

Just a simple man

**1 I don't know how to tell you
I don't know what to say
I don't know how to share these feelings
I just can't find a way**

**2 But you know that I love you
So try to understand
That underneath my complications
I'm just a simple man**

Middle 8.1

**But things are shared between us
A thousand times each day
But sometimes it's my eyes that tell you
Much more than words can say**

Solo

Middle 8.2

**But time stands still for no one
We've got to journey through
But if you'll be my one companion
You'll know my aim is true**

**3 I may not be a hero
But if you take my hand
I promise I will always be there
I'm just a simple man
I'm just a simple man
I'm just a simple man**

Take This Town

- 1 Ready, get steady, gonna take this town tonight
I'm a cool cat, kitty, gonna shake this city alright
And with some back-beat blues
we're going to cruise into the early blue light**
- 2 Ready, get steady gonna teach you how to rock'n'roll
With some boogie-woogie blues
and then some heart-stopping rhythm and soul
When the band starts rockin'
Going to really start to have us a ball**

Chorus

**Going to take this town
Going to shake this town
Going to wake this town
Going to give it back a little of life
Going to make this town
Going to break this town
Take this town tonight**

Solo

- 3 Ready, get steady, gonna take this town tonight
Like a cool Cassanova,
gonna rock and roll it over alright
And when the drummer starts hitting
Going to really start trippin' the light**

Repeat Chorus

Tonight, tonight, tonight

Solo

Repeat Chorus

Better World Tomorrow

- 1 Reading between the lines
We've had our kinder times
But girl it would be a crime
To walk out on us
We've got to find a way
To make a brand new day – 'cause**

Chorus

**This game is for winning
Let's make a new beginning
And build a better world tomorrow
This love is our making
And though the walls are shaking
We'll build a better world tomorrow**

- 2 Under these darker skies
The call is for compromise
Not to idealise or hold on to pride
We've got to stand our ground
'Cause harmony can be found – 'cause**

Repeat Chorus

Middle 8

**But in times like these it's hard to see
The wood gets lost in all the trees
When love is still the one true key to it all**

Repeat Chorus
